

Economic Semi-Automatic Tray Sealer Packaging Machine

EcoTech VORMEK
Combines Economy and Technology

VORMEK

Innovation-based Company

Vormek Machinery Manufacturing

The Most Trusted Manufacturer in the Field of Designing and Manufacturing
Various Tray Sealer, Vacuum Chamber, and Thermoforming Machines

Special Features of This Machine

www.Vormek.com

EN-RU-AR-FA-DE

- Using the Economic Semi-Automatic Tray Sealer Packaging Machine, various food products can be packed by the operator inside trays with high shelf life in a beautiful and unique way.
- Considering the high experience and sufficient knowledge of the technical and engineering department of this company, there is no limitation in choosing the shape and dimensions of the tray, and the machine can be designed and manufactured according to the customer's request. Also, there is no limitation regarding these machines in providing creative ideas and having unique and beautiful packaging.
- In this machine, various types of transparent, metallized, and aluminum plastic films can be used in plain or printed form for packaging.
- This machine is suitable for factories with low production capacity or for workshops and restaurants.

Successfully achieved the CE
certificate from Europe in the
field of packaging machine manufacturing.

Holds the ISO 9001 Certificate in the
Field of Packaging Machinery
Manufacturing

MAP Method

Packaging with Modified Atmosphere Method to increase product shelf life, vacuuming the air inside the tray and injecting gas, as well as precise and strong sealing, are features of using this tray sealer. Packaging with the Modified Atmosphere Method increases the shelf life of food products by 3 to 10 times without using chemical preservatives.

The Most Important Advantages of This Packaging Machine

- Strong Body and Structure
- Easy and User-Friendly Operation
- Perfect and Firm Sealing
- Quick and Easy Washing
- Low Maintenance Cost and Easy Repair
- Multi-Purpose Capability for Packaging with Different Molds

Enhancing the Beauty and Quality of Packaging by Vormek

Accurate packaging with strong sealing and standard design with precision and intelligence — High Efficiency — Increased Product Shelf Life — Cost Saving — Hygienic Design — Very Strong and Firm Sealing — Beautiful Cutting and Sealing.

Choosing Vormek means:

- Opting for the Leading Brand
- Embracing Technology
- Ensuring Quality
- Fostering Innovation
- Guaranteeing Success
- Implementing Smart Solutions

Key objectives of using machines from Vormek include preserving freshness, extending the shelf life of products, maintaining taste and nutritional value, ensuring sanitary, and preventing spoilage and oxidation.

EcoVision VORMEK
Suggests a clear vision for cost-efficiency.

Technical Specifications of the Economic Semi-automatic Tray Sealer Packaging Machine

Packaging Speed

Capable of reaching 7-8 cycles per minute.

Machine Control Panel

Equipped with a high-quality Delta brand touchscreen display, supporting multiple international languages.

Temperature Control System

Using PID System to Control the Temperature of the Tray Sealer Packaging Machine

Vacuum Pump

Powerful Vacuum Pump: offering a suction capacity of 20 m³

Dimension of

Length: 1.1 meters – Height: 1 meters – Width: 0.7 meters

Electrical Parts

Utilizing top-tier and trusted brands. (Delta, Phoenix, Autonics, Siemens, Moller)

Mold Dimensions

340x440 mm

Body Material

Constructed from high-quality 304 stainless steel

Electrical Power

3 KW

Electric Current

6 Amp
