Automatic Tray Sealer Packaging Machine

VORMEK

Innovation-Based
Machinery Company

The most reputable designer and manufacturer in the field of different Tray Sealer- Vacuum Chamber, and also a manufacturer of qualified thermoforming packaging machines with a high technology level

Special Features of This Machine

Vormek.com

EN-RU-AR-DE

By using the automatic tray sealer packaging machine, different food products can be packaged automatically and continuously in plastic and aluminum Trays. Considering the technical and engineering capabilities of this company, there is no limitation in the shape and size of the tray, and the machine mold is designed and manufactured according to the customer's sample. Therefore, you can work on the aesthetics of your packaging and have innovative and new ideas. In this machine, various types of transparent, simple, and stable plastic films can be used in packaging.

Successfully achieved the CE certificate from Europe in the field of packaging machine manufacturing.

Holds the ISO 9001 Certificate in the Field of Packaging Machinery Manufacturing

MAP Method

Packaging with the modified atmosphere method (MAP) to preserve product freshness by removing air inside the tray (vacuuming) and injecting of neutral gases, as well as precise and firm sealing, are features of using this machine. Packaging with the modified atmosphere method increases the shelf life of food products by up to 1 time, without using chemical preservatives.

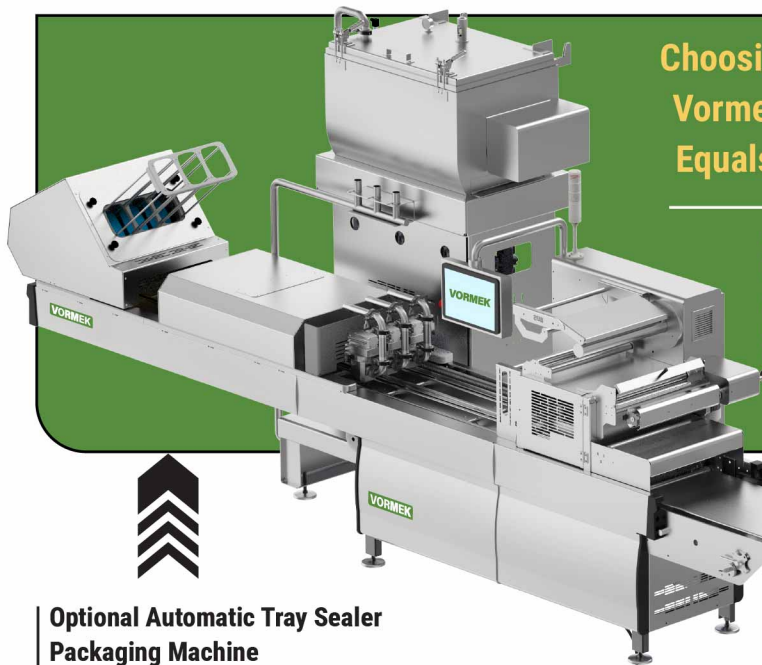

The Most Important Advantages of This Packaging Machine

- Sturdy Body and Structure
- User-Friendly
- Firm Seal Without Error
- Quick and Easy Washing
- Low Maintenance Cost and Easy Repair
- Multi-Purpose Capability for Tray Packaging with Different Molds

Alongside this packaging machine, various options aimed at eliminating human hand intervention, increasing workplace hygiene, and enhancing the beauty of the packaging can be provided.

Precise packaging, along with a firm seal and standard design, with accuracy and intelligence, High efficiency, increased product shelf life, cost savings, hygienic design Very strong and firm sealing, beautiful cutting, and sealing

Choosing VORMEK Equals:

- Choosing a Leading Brand
- Choosing Technology
- Choosing Quality
- Choosing Innovation
- Choosing Success
- Choosing Smartness

Aspects such as:

Preserving freshness, increasing product shelf life, maintaining the taste and nutritional value of the product, as well as hygiene and durability, preventing spoilage and oxidation of products, are the main objectives of using this company's machines.

Optional Automatic Tray Sealer Packaging Machine

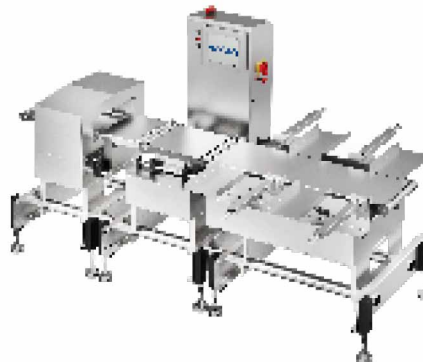

An example of a fully automatic Tray Sealer full-option packaging machine, which includes options such as automatic denestre, UV tunnel, filler, rower, rotary table, and weight control systems.

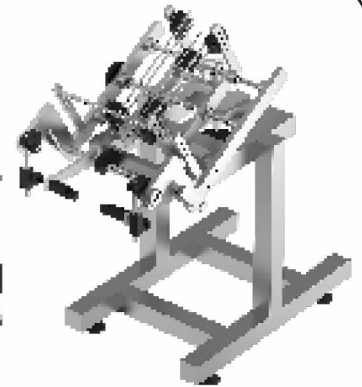

Optional Automatic Tray Sealer Packaging Machine

A standout feature of VORMEK's machines is the easy interchangeability of molds. Operators can quickly replace molds in under 10 minutes. With just one machine, you can package a variety of products using different molds.

Other Options Available for Order According to Customer Needs

Metal Detector and Check weigher

Automatic Ladder

Technical Specifications of Automatic Tray Sealer Packaging Machine by General Type

Packaging speed

It is 7 to 8 cycles per minute

Machine Control Panel

Equipped with a high-quality Delta brand touchscreen display, supporting multiple international languages

Mold Dimensions

440x300 mm

Body Material

Constructed from high-quality 304 stainless steel.

Electrical Power

3 KW

Electric Current

7.5 Amp

Pack Meister

Dimensions of the machine

Length 4.3 meters, width 1 meter, height 1.9 meters

Electrical Parts

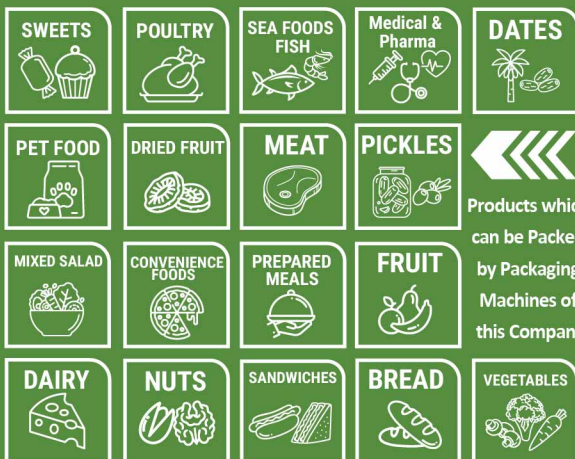

Utilizing top-tier and trusted brands. (Delta, Phoenix, Autronics, Siemens, Moller)

Temperature Control System

Use of PID system for controlling the machine temperature

Vacuum Pump

Powerful vacuum pump with a suction capacity of 63 m³

Products which can be Packed by Packaging Machines of this Company
